

Brightcart App & Platform FAQ

Brightcart Customer Policies — App & Platform FAQ

Account & Profile

How do I update my account information?

Go to **Profile > Edit Profile** to update your name, email, phone number, or delivery addresses. Changes to your registered phone number require OTP verification for security.

How do I add or change my delivery address?

Go to **Profile > My Addresses** to add or edit an address. Note: an address can only be changed on an order while its status is still **Placed**, not after it ships.

I forgot my password. What do I do?

Tap **Forgot Password** on the login screen and follow the OTP/email verification steps to reset it.

Orders

How do I check my order history?

Go to **My Orders** to see all past and current orders, along with their status: **Placed, Shipped, Delivered**, or **Cancelled**.

How do I track a specific order?

Open the order under **My Orders** and tap **Track Order** to see live courier status and estimated delivery date.

Can I change items in an order after placing it?

No, items can't be swapped once an order is placed. You can cancel the order — while it's still in **Placed** status — and place a new one instead.

Payments

What payment methods are accepted?

- Credit and debit cards
- UPI
- Net banking
- Popular mobile wallets
- Cash on Delivery (COD), available on orders under ₹5,000, with a ₹25 COD handling fee
- Brightcart store credit / coupons

My payment was deducted but the order shows as failed. What now?

This usually means the payment was received but not yet confirmed, and it typically auto-resolves within a few hours. If the amount isn't reflected as an order, or refunded, within **5-7 business days**, contact support

with your payment reference ID.

Is it safe to save my card details?

Yes — Brightcart uses secure, PCI-DSS compliant payment processing, and full card numbers are never stored on our servers.

Troubleshooting

The app is crashing or not loading.

Try updating to the latest app version, clearing the app cache, or reinstalling. If the issue persists, contact support with your device model and OS version.

I didn't receive my OTP.

Wait 60 seconds and tap **Resend OTP**. Confirm your registered number has network coverage. If it still fails, try **Get OTP via Call** where available.

How do I contact human support?

- **In-app chat:** Help > Chat with Us (fastest option)
- **Email:** support@brightcart.example — response within 24 hours
- **Phone:** available 9 AM – 9 PM, 7 days a week

Support is also reachable for order-specific issues directly from the **My Orders** page via the **Need Help?** button on each order.
