

Brightcart Refund Policy

Brightcart Customer Policies — Refunds

When Refunds Are Issued

A refund is initiated only after a return has been inspected and its status changes to **Approved**. No refund is issued for returns still in **Requested** status, and none is issued if a return is marked **Rejected**.

Refund Methods

When requesting a return, you can choose between two refund methods:

1. Original Payment Method

- Refund is credited back to the card, UPI ID, net banking account, or wallet used for the original payment.
- Processing time: **5-7 business days** after the return is approved. Your bank may take a few extra days to reflect the credit.

2. Store Credit (Coupon)

- Issued as a coupon for a fixed rupee amount equal to your refund value.
- Credited to your Brightcart account within **24-48 hours** of approval — faster than an original-method refund.
- Valid for **90 days** from the date of issue, and can be applied to any future order.
- Unused store credit expires after 90 days and cannot be extended or reissued.

If no method is selected, refunds default to the original payment method.

Refund Timeline Summary

Step	Timeline
Return inspected after pickup/receipt	Within 2 business days
Refund initiated after approval	Same day as approval
Amount credited (original payment method)	5-7 business days
Store credit coupon issued	24-48 hours

Partial Refunds

Since returns are requested per item, refunds are calculated per item, not per order.

- Returning only some items from a multi-item order refunds only those items.

- Original shipping charges are non-refundable, unless the entire order is cancelled before shipping or the returned item was defective/incorrect.
- If a promotional coupon was applied to the order, the refund reflects the discounted price actually paid, not the original MRP.

If Your Refund Is Rejected

A return — and its associated refund — can be rejected if:

- The item fails quality inspection (signs of use, damage, missing parts)
- The item doesn't meet the eligibility conditions in the Return Policy
- The 7-day (or 3-day, for furniture) return window has expired

If rejected, no refund is issued and the item may be shipped back to your address. If you believe this was a mistake, you can raise a dispute through the Help section within **3 days** of the rejection, and our team will re-review the case.

Tracking Your Refund

Check refund status anytime under **My Orders > Returns**, where it will show as **Requested**, **Approved**, **Rejected**, or **Refunded**.
