

Brightcart Return Policy

Brightcart Customer Policies — Returns

Return Window

- Most items can be returned within **7 days of delivery**.
- Furniture items have a shorter window of **3 days from delivery**, due to size and installation considerations.
- Some categories are return-restricted — see exceptions below.

Eligibility Conditions

To qualify for a return, items must be:

- Unused and undamaged
- In original packaging, with all tags, labels, manuals, and accessories included
- Free of any signs of installation, wear, or alteration
- Accompanied by the original invoice or order confirmation

Items that don't meet these conditions may fail inspection, and the return will be marked **Rejected**.

Category-Specific Exceptions

Storage (pen drives, external hard drives, memory cards)

- Returnable only if the factory seal is intact and unopened, for data security and hygiene reasons.
- Defective or dead-on-arrival items can still be returned within the standard 7-day window regardless of seal status.

Wearables (earphones, smartwatches, fitness bands)

- Returnable only if unopened with the seal intact, for hygiene reasons.
- Defective or malfunctioning wearables are accepted for return within 7 days even if opened.

Gaming

- Physical games, consoles, and accessories follow the standard 7-day return policy.
- Digital game codes, downloadable content, and redeemed gift cards are non-returnable once the code has been revealed or redeemed.

Furniture

- 3-day return window from delivery.
- Item must be unassembled and in original packaging. Assembled or installed furniture cannot be returned unless defective.

Electronics, Home, Accessories

- Standard 7-day window applies, with no additional category-specific restrictions beyond the general eligibility conditions above.

How to Initiate a Return

- 1 Go to **My Orders** in the Brightcart app or website.
- 2 Select the specific item you want to return — returns are requested per item, not per order.
- 3 Tap **Request Return** and choose a reason from the dropdown.
- 4 Choose a pickup slot, or opt for self-ship if pickup isn't available in your area.
- 5 Your return status will now show as **Requested**.

What Happens Next

- Our team reviews the item within **2 business days** of pickup or receipt.
- If it passes inspection, the status changes to **Approved** and a refund is initiated — see the Refund Policy for details.
- If it fails inspection (signs of use, damage, missing accessories), the status changes to **Rejected** and the item may be shipped back to you.

For questions about a specific return, use the **Need Help?** button on the order, or contact support through the Help section of the app.
